THE FACT THAT

Kujawsko-Pomorskie Voivodeship will once again host the European Rowing U-23 Championships is very welcome news for us.

Both athletes and visitors from abroad will appreciate great sports infrastructure and perfect conditions offered by the biggest natural reservoir in the region – Lake Gopło.

Organization of such major sporting event is also a wonderful opportunity to promote Poland and Kujawsko-Pomorskie Voivodeship.

I accepted with pleasure the proposal of honorary patronage over the European Rowing U-23 Championships that will be held on September 4-5, 2021 in Kruszwica.

Good luck to all participants of this sporting competition and organizers of this exceptional event.

I am convinced that you will achieve your goals and be pleased about organization of this undertaking.

See you in Kruszwica!

Mikołaj Bogdanowicz
Bogdan
Kujawsko-Pomorskie Voivode

THE KUJAWSKO-POMORSKIE VOIVODESHIP

and the city of Kruszwica will once again host the best players during the European U-23 Rowing Championships,

organized on September 4-5, 2021. Kujawy and Pomerania is a rowing kingdom and we have many Olympic, World and European Champions here. The town of Kruszwica with the historic „Mouse Tower”, which is located on Lake Gopło, has a beautiful regatta course with the active Gopło Kruszwica Rowing Club.

I am very glad that so many young athletes will visit our region. Sport and competition teach everyone to respect another person, perseverance and striving for a goal. It also offers an opportunity to meet many extraordinary people and get to know new regions with their culture.

The year 2021 will be filled with many sports emotions not only on the world stage, but also in the Kujawsko-Pomorskie Voivodeship. In addition to the rowers' struggle, we will cheer the best athletes in the world and Europe during athletic competitions: the Copernicus Cup Meeting and the European Indoor Championships in Toruń. Welcome to Poland, Kujawy and Pomerania – a region supporting athletes. Together, we will cheer on their struggle for the best results. I hope you will bring back unforgettable memories from your stay in our region. See you in the near future.

Marszałek Całbecki
Piotr Całbecki

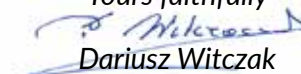

DEAR ROWING FRIENDS!

I hereby inform that we are privileged to organize the European Rowing Under 23 Championships, a prestigious sports event, which will take place in Kruszwica in 2021. I always acknowledge and support every action that propagates physical culture, sports and sports competition. I am proud that Kruszwica, which is situated by picturesque lake Gopło and undoubtedly has well-established rowing traditions, has become a place of rowing rivalry for outstanding sportspersons. We are highly experienced in organizing rowing competitions. It was lake Gopło that hosted events such as the Polish Rowing Junior Championships, the Polish Rowing Senior Championships, the Polish Youth Olympic Days, the 1st European Rowing Junior Championships and the 5th European Universities Rowing Championships.

Our great advantage is the fact that we possess suitable sports infrastructure and a natural rowing course; the latter has recently been thoroughly modernized so it meets required standards. I am convinced that this championship will be a great and unique sports event for the competitors, the invited visitors as well as the inhabitants of Kruszwica and Kuyavian-Pomeranian Region. You are cordially invited to Kruszwica, a legendary capital of Poland. Wishing you every success and pleasant experiences during the stay in our town and Kuyavian-Pomeranian Region.

Yours faithfully

Dariusz Witczak

DEAR ROWING FRIENDS!

welcome to Kruszwica at 2021 European Rowing U-23 Championships. Rowing Club Gopło Kruszwica had organized many international regattas including European University Rowing Championships in 2009 ,Olympic Hopes Regatta in 20210, first European Rowing Juniors Championships in 2011 and first European Rowing U-23 Championships in 2017. For many years this natural rowing course on Gopło Lake has been the main location for polish rowing youth. Thanks to significant support of the regional and local government, the technical standard of the venue is improving every year. The group of volunteers working in the Organizing Committee collect experience by yearly taking new challenges. Covid 19 pandemic situation poses additional requirements and challenges to the organizer and the participants.

I strongly believe that using the experience from European Rowing event organizers from the last year, following all European Rowing and local sanitary authorities recommendations we are able to have safe and successful championships. It would be the best way to honor the 110 anniversary of the Rowing Club Gopło Kruszwica. I wish all the competitors a very pleasant stay in hospitable Poland. I wish you all a great sport atmosphere and good weather giving all the competitors equal opportunities and chances in the competition.

President of PZTW

Ryszard Stadniuk

KRUSZWICA

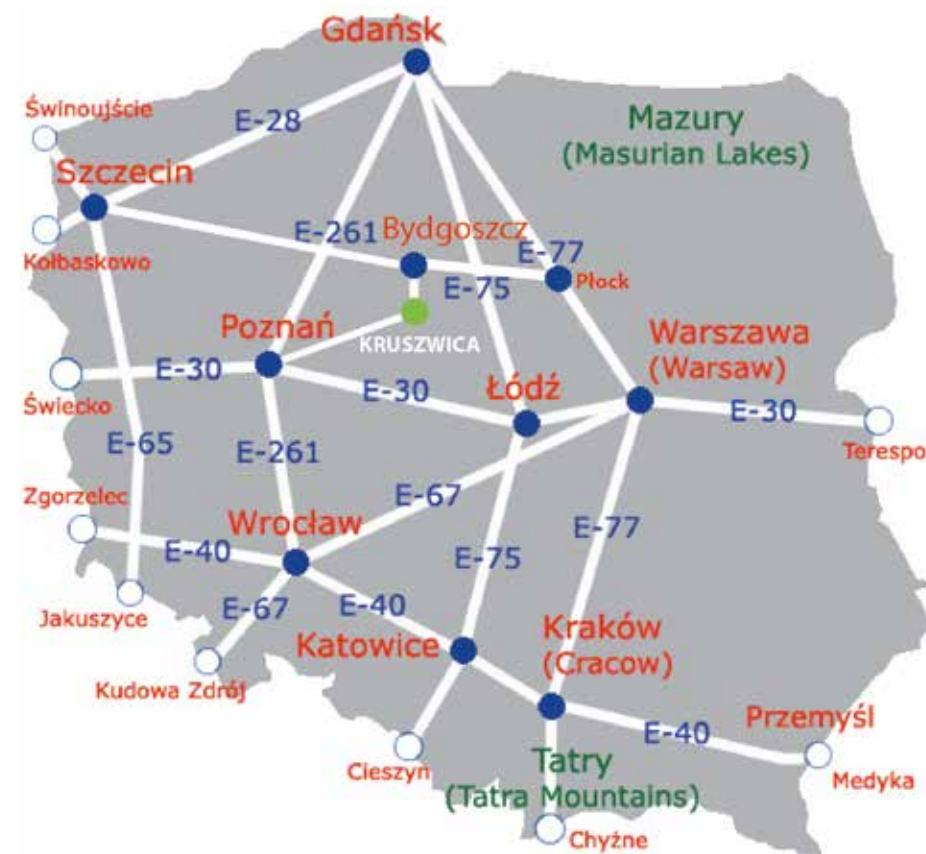

Kruszwica (52° 40'38" N, 18° 19'45" E) is a town in central Poland, situated at Lake Gopło in the Kuyavian-Pomeranian Voivodeship (since 1999), previously in the Bydgoszcz Voivodeship (1975-1998). Its population reaches 9,412 people (2004) living in the area of over 9,800 hectares. The town charter was granted to the settlement in 1422 by king Władysław Jagiello. Kruszwica, the legendary capital of Piast

Monarchy, with its administrative district has 26,219 hectares; the majority of the land is devoted to agriculture but 6,600 hectares is a reserve of Gopło Millennium Park. The name Kruszwica comes from a lump of salt which was called "kruszw" in the Old Polish language. In the Middle Ages, salt was obtained from the underground salt water of the neighbouring area. The emblem of the town is a picture of a green pear tree, a

traditional Polish symbol of wealth. Kruszwica is beautifully situated at Lake Gopło and its location is great encouragement to visit this magnificent district of Kujawy. One of the most famous monuments of Kruszwica is The Mouse Tower. Made of bricks, this octagonal tower is 32 meters high and it is situated on Rzepowski peninsula at Lake Gopło. The most interesting thing is the architecture because the tower inside has the round shape.

This is the part of a castle which was built by Kazimierz Wielki in 1350. At first, it was a small fort built in order to protect Kruszwica from the Knights of the Cross. After the breakdown of the Teutonic Order, it became a seat of Kruszwica's castellany. It was devastated by Swedes in 1657 after having been occupied by them for two years. The tower was bought back by Adam who gave the Swedes a ransom of pigs and cattle. Since 1895 it has been a tourist attraction and a vantage point.

TRAVEL TO KRUSZWICA

By Air:

The nearest airports are: Paderewski Airport in Bydgoszcz – about 60 km from Kruszwica, Lawica Airport in Poznan – about 110 km from Kruszwica and Chopin Warsaw Airport in Warsaw – about 250 km from Kruszwica or Wrocław Airport – about 230 km from Kruszwica. Transport from all airports is provided by the organizer. Round-trip airport transfer 20 euros per person.

By Road:

In order to get from Warsaw to Kruszwica, you have to take route 62, from Poznan you have to take route 5/E261 and then route 15 and from Wrocław you have to take route 25.

REGATTA COURSE

A natural rowing course situated in a Landscape Park, protected by the program Natura 2000 is a wonderful place to rest and to play water sports.

The post-glacial lake is a sheltered spot. The rowing club is situated just by the lake shore, near the regatta course, so it is very easy, comfortable and safe to keep the boats and to go down the water. The area of the club is fenced in and monitoring 24 hours a day.

Near the regatta course, there is a historical tower, 32 meters high, which provides a great opportunity to admire wonderful views of

the lake as well as the regatta course.

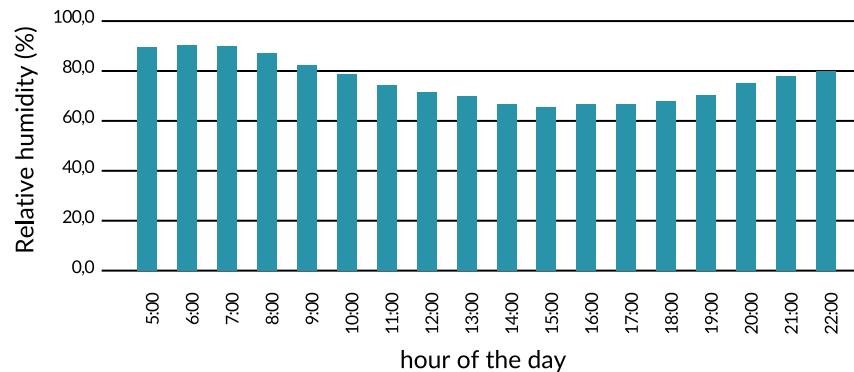

The activists of our “Goplo Kruszwica” Rowing Club have great experience in organising rowing competitions, including European Championships with over 1000 competitors. We have vast rescue and medical services. Near the regatta course, there is a restaurant which serves tasty meals. There is also a guarded car park for about 300 cars and buses.
